SUMMARY

UI/Front-End Developer with 12+ years of experience and a strong foundation in visual design. Specialized in Angular, React, SCSS, and accessibility (508 compliance), with a proven ability to translate complex Figma designs into pixel-perfect, reusable components. Passionate about clean, maintainable code, user-first design, and building fast, inclusive, and accessible digital experiences.

PROFESSIONAL EXPERIENCE

SENIOR UI DEVELOPER – SOFTRAMS/TRIA FEDERAL

August 2019 – Present

- Developed accessible, responsive UIs for the MEARIS (CMS) platform using Angular, SCSS, and Angular Material, adhering to 508 compliance standards.
- Translated Figma designs into reusable, scalable components and helped establish a scalable UI design system.
- Initiated and presented a live UI Style Library to leadership, adopted as a long-term solution for managing tech debt and design consistency.
- Built versatile, shared UI components to accelerate development and reduce duplication across the platform.
- Proactively resolved mobile UI bugs outside of sprint scope, independently tracking and managing issues.
- Frequently consulted as the team's UI/CSS subject matter expert and mentored developers on styling and accessibility.
- Presented regularly in bi-weekly internal developer talks to share best practices, pair program, and foster cross-team collaboration.

FRONT END DEVELOPER – KASEYA

June 2016 – August 2019

- Developed and maintained responsive features across multiple branded sites using HTML5, CSS3, JavaScript, PHP, and Bootstrap 4.
- Designed and integrated visual assets using Photoshop and Illustrator within WordPress, Drupal, and Jekyll CMS environments.
- Built scalable layouts with SASS, Flexbox, and ACF-based custom plugins; optimized workflows using Gulp, npm, and Git.
- Implemented Google Tag Manager and MySQL-based solutions to track site performance and support dynamic content.
- Collaborated with design, marketing, and backend teams to deliver cohesive, data-informed digital experiences.
